

CASY | NEW DATA ACQUISITION AND ANALYSIS CAPABILITIES

Meet a brand-new tool for your CASY

- + Intuitive instrument control.
- + Expanded and simplified measuring routines.
- + Enabling evaluation and data organization tools.

Upgrade Your CASY now

Hardware: Chose between Surface-PC and Laptop or use your own Windows-based Computer*.

Software: Encounter a wealth of new possibilities in data organization and data evaluation, such as:

- viability - live / dead evaluation
- differentiate up to 5 cell populations for each sample
- detect and analyze cell aggregates
- overlay multiple samples plots
- calculate mean values and a mean value graph
- intuitive control, wizard-based routines
- easy data export and customization tools
- a dashboard provides fast access to all relevant functions of CASY
- user management and experiment organization

Within easy reach: the new CASY dashboard provides 1-click access to all central functions

Easy and lucid template management

Example: Compare PBMC Monocytes from different donors

PBMC are not the same - depending on donor, the ratio between Monocytes and Lymphocytes can vary significantly, having a major impact on downstream steps.

* Minimum requirements will be provided
For research use only. Not for use in diagnostic procedures.
