General PCR Consumables

THIN WALL DESIGN

4titude[®] offers a range of PCR consumables for low to medium throughput applications. Our tubes, tube strips and plates are moulded from virgin polypropylene under clean-room conditions and comply to the same stringent QC requirements as our FrameStar[®] range. Please see pages 42-45 for sealing options.

Benefits

- Clean-room produced
- Thin-wall design
- Free of human DNA, RNases and DNases
- Leak tested

Plate Dimensions

96well PCR Plate, non-skirted

- Universal fit for most 0.2ml thermal cyclers and sequencers
- Standard tube height with 0.3ml working volume
- Black grid reference for easy sample identification
- Cut corner for plate orientation
- Can be cut into sections

Image: set in the set i

- Clear wells for improved sample visibility
- Raised well rims to avoid cross contamination and to facilitate heat sealing
- Compatible with our domed and flat cap strips
- Heat sealing and adhesive sealing options available

	Code	Description	Quantity
	4ti-0750	96well PCR plate, non-skirted	50 plates
NEW	4ti-0750/W	96well PCR plate, non skirted, white	50 plates
	4ti-0751	Strips of 8 flat optical caps	300 strips
	4ti-0752	Strips of 8 domed caps	300 strips

PCR

96well PCR Plate, semi-skirted

- 0.3ml maximum well volume (when used with adhesive and heat seals)
- Black grid reference for easy sample identification
- Cut-off corner for plate orientation
- Compatible with many major thermal cyclers

Code	Description
4ti-0760	96well PCR plate, semi skirted
4ti-0761	96well PCR plate, white, semi skirted
4ti-0751	Strips of 8 flat optical caps
4ti-0752	Strips of 8 domed caps

- Clear wells for improved sample visibility
- Heat sealing and adhesive sealing options available
- Compatible with our domed and flat cap strips
- Suitable for barcoding

Quantity
50 plates
50 plates
300 strips
300 strips

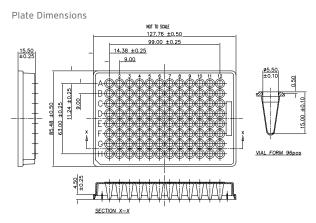

Barcode ordering codes

Please add to ordering code /SBC for Standard Single Barcoding or /DBC for Standard Double Barcoding. (See page 35 for more details)

96well PCR Plate, skirted, low profile

- Low profile design, 0.2ml maximum working volume (when used with sealing sheets)
- Cut-off corner for plate orientation
- Black grid reference for easy sample identification
- Stackable
- Clear wells for improved sample visibility

- Raised well rims to avoid cross contamination and to facilitate heat sealing
- Compatible with our domed and flat cap strips
- Heat sealing and adhesive sealing options available
- Suitable for barcoding

Code	Description	Quantity	Barcode ordering codes
4ti-0740	96well PCR plate, skirted	50 plates	Please add to ordering code
V 4ti-0741	96well PCR plate, white, skirted	50 plates	/SBC for Standard Single Barcoding or /DBC for Standard Double Barcoding.
4ti-0751	Strips of 8 flat optical caps	300 strips	(See page 35 for more details)
4ti-0752	Strips of 8 domed caps	300 strips	

General PCR Consumables

Strips of 8 PCR Tubes

- Suitable for all standard 0.2ml block thermal cyclers
- 0.25ml maximum recommended capacity
- Individually numbered tubes
- Can be cut into sections
- Available with domed and flat, optical caps

Code	Description	Quantity
4ti-0781	Strips of 8 PCR tubes	125 strips
4ti-0780	Strips of 8 PCR tubes and domed caps	125 strips
4ti-0784	Strips of 8 PCR tubes and flat optical caps	125 strips

Individual 0.2ml PCR Tubes

- Flat and domed cap designs
- Suitable for all standard 0.2ml block thermal cyclers
- Snap-shut cap
- 0.25ml maximum recommended capacity

Code	Description	Quantity
4ti-0790	0.2ml single tube, flat cap	1000
4ti-0795	0.2ml single tube, domed cap	1000

Strips of 8 Flat Optical Caps

- Compatible with our tube strips (use code 4ti-0783) and 96well PCR plates (use code 4ti-0751)
- Optically clear for fluorescence detection (e.g. qPCR)
- Easy to apply
- Large end tabs for easy removal
- Labelled for orientation

Code	Description	Quantity
4ti-0783	Strips of 8 flat optical caps for use with our tube strips	125 strips
4ti-0751	Strips of 8 flat optical caps for use with our PCR plates	300 strips

Strips of 8 Domed Caps

- Compatible with our tube strips (use code 4ti-0782) and 96well PCR plates (use code 4ti-0752)
- Easy to apply
- Large end tabs for easy removal
- Labelled for orientation

Code	Description	Quantity	
4ti-0782	Strips of 8 domed caps for use with our tube strips	125 strips	
4ti-0752	Strips of 8 domed caps for use with our PCR plates	300 strips	

Accessories

Ergo Stands

The height and angle of the Ergo Stand can be adjusted for maximum comfort during pipetting sequences. This reduces the stress and strain on the upper body and can help to prevent repetitive strain disorders (RSI) and work related upper-body limb disorders (WRULD).

The stand includes eight spaces for 1.5ml or 2.0ml microcentrifuge tubes. This is especially useful for when pipetting master mixes into PCR plates.

For colour coding or identification of your work, we offer the Ergo Stands in 4 colours: red, green, blue or yellow.

Code	Description	Stands/Case
4ti-0393/B	Ergo Plate Stand, Blue	
4ti-0393/R	Ergo Plate Stand, Red	
4ti-0393/G	Ergo Plate Stand, Green	
4ti-0393/Y	Ergo Plate Stand, Yellow	

Fully adjustable height and angle for maximum pipetting comfort.

Less stress and strain on the upper body.

Ergo stands have eight positions for 1.5ml or 2.0ml microcentrifuge tubes.

Accessories

1.2ml 96well Low Profile Deep-Well Plate

- 1.2ml working volume
- Half the height of standard deep-well plates
- SBS footprint
- Wide diameter wells
- Cross-contamination eliminated by chimney-style wells

Ven

- Clear plastic aides visibility of samples
- Alphanumeric coding
- Ideal for use with robotic platforms
- Suitable for barcoding
- Stackable
- Autoclavable

Code	Description	Quantity	Barcode ordering codes	
4ti-0120	1.2ml, 96well Low profile deep-well plate	50 plates	Please add to ordering code /SBC for Standard Single Barcoding or /DBC for Standard Double Barcoding. (See page 35 for more details)	
4ti-0135	96well Cap mat	100 mats		

White Marker Pen

- Ideal for labelling Vision Plates[™], FrameStar[®] plates and FrameStrips[™]
- Cannot be removed using aqueous or organic solvents
- Perfect solution for labelling coloured or black plates

4ti-0394	White marker pen

1 pen

Roller for Adhesive Seals

CodeDescriptionPack Size/Dimensions4ti-0502Roller for adhesive seals1 roller

- Ideal for use with 4titude[®] adhesive seals
- Complete and secure application of adhesive seals
- Durable plastic construction
