For Research Use Only. Not for Use in Diagnostic Procedures.

Applications: WB, IP	Reactivity: H	Sensitivity: Endogenous	MW (kDa): 150	Source/Isotype: Rabbit IgG	UniProt ID: #Q9Y219	Entrez-Gene Id: 3714
Product Usage Information	Ар	plication		Dilution		
	We	estern Blotting		1:1000		
	Im	munoprecipitation		1:50		
Storage		Supplied in 10 mM sodium HEPES (pH 7.5), 150 mM NaCl, 100 μ g/ml BSA, 50% glycerol and less than 0.02% sodium azide. Store at -20° C. Do not aliquot the antibody.				
Specificity / Sensitivity		Jagged2 (C83A8) Rabbit mAb detects endogenous levels of total Jagged2 protein. This antibody does not cross-react with Jagged1.				
Source / Purificat		Monoclonal antibody is produced by immunizing animals with a synthetic peptide corresponding to residues surrounding Pro1212 of human Jagged2.				
Background	Ser like ider rece sec whe	rate, Lag2) proteins repeats and a DSL atified in mammals: eptor results in two s retase complex. The ere it activates transo	vated upon engagement of the Notch receptor with its ligands, the DSL (Delta, s of single-pass type I membrane proteins. The DSL proteins contain multiple EGF-L domain that is required for binding to Notch (1,2). Five DSL proteins have been: Jagged1, Jagged2, Delta-like (DLL) 1, 3 and 4 (3). Ligand binding to the Notch sequential proteolytic cleavages of the receptor by the ADAM protease and the yne intracellular domain of Notch is released and then translocates to the nucleus scription. Notch ligands may also be processed in a way similar to Notch, suggesting ng through receptor-ligand interactions (4-6).

Species Reactivity

Species reactivity is determined by testing in at least one approved application (e.g., western blot).

Western Blot Buffer

IMPORTANT: For western blots, incubate membrane with diluted primary antibody in 5% w/v nonfat dry

milk, 1X TBS, 0.1% Tween® 20 at 4°C with gentle shaking, overnight.

Applications Key

 $\textbf{WB:} \ \textbf{Western Blotting IP:} \ \textbf{Immunoprecipitation}$

Cross-Reactivity Key

H: human M: mouse R: rat Hm: hamster Mk: monkey Vir: virus Mi: mink C: chicken Dm: D. melanogaster

X: Xenopus Z: zebrafish B: bovine Dg: dog Pg: pig Sc: S. cerevisiae Ce: C. elegans Hr: horse

GP: Guinea Pig Rab: rabbit All: all species expected
