For Research Use Only. Not for Use in Diagnostic Procedures.

Applications:Reactivity:Sensitivity:MW (kDa):Source:UniProt ID:Entrez-Gene Id:WBH M R Mk BEndogenous78 to 82Rabbit#O433186885

Product Usage Application Dilution Information Western Blotting 1:1000

Storage Supplied in 10 mM sodium HEPES (pH 7.5), 150 mM NaCl, 100 μg/ml BSA and 50% glycerol. Store at –

20°C. Do not aliquot the antibody.

Specificity / Sensitivity TAK1 Antibody detects endogenous levels of total TAK1 protein.

Species predicted to react based on 100% sequence homology:

Chicken, Xenopus

Source / Purification Polyclonal antibodies are produced by immunizing animals with a synthetic peptide corresponding to

residues near the carboxy-terminus of human TAK1. Antibodies are purified by protein A and peptide

affinity chromatography.

Background TAK1 is a mitogen-activated protein kinase kinase kinase that can be activated by TGF-β, bone

morphogenetic protein and other cytokines including IL-1 (1,2). *In vivo* activation of TAK1 requires association with TAK1 binding protein 1 (TAB1), which triggers phosphorylation of TAK1 (3,4). Another adaptor protein, TAB2, links TAK1 with TRAF6 and mediates TAK1 activation upon IL-1 stimulation (5). Once activated, TAK1 phosphorylates MAPK kinases MKK4 and MKK3/6, which activate p38 MAPK and JNK, respectively. In addition, TAK1 activates the NF-κB pathway by interacting with TRAF6 and

JNK, respectively. In addition, TAK1 activates the NF-kB pathway by interacting with TRAF6 and phosphorylating the NF-kB inducing kinase (NIK) (2).

Species Reactivity Species reactivity is determined by testing in at least one approved application (e.g., western blot).

Western Blot Buffer IMPORTANT: For western blots, incubate membrane with diluted primary antibody in 5% w/v nonfat dry

milk, 1X TBS, 0.1% Tween® 20 at 4°C with gentle shaking, overnight.

Applications Key WB: Western Blotting

Cross-Reactivity Key H: human M: mouse R: rat Hm: hamster Mk: monkey Vir: virus Mi: mink C: chicken Dm: D. melanogaster

X: Xenopus Z: zebrafish B: bovine Dg: dog Pg: pig Sc: S. cerevisiae Ce: C. elegans Hr: horse

GP: Guinea Pig Rab: rabbit All: all species expected
