Revision 5

TCF1/TCF7 (C63D9) Rabbit mAb (Alexa Fluor [®] 647 Conjugate)		Cell Signaling TECHNOLOGY®
St		Orders: 877-616-CELL (2355) orders@cellsignal.com
60		Support: 877-678-TECH (8324)
#6709		Web: info@cellsignal.com cellsignal.com
		3 Trask Lane Danvers Massachusetts 01923 USA
For Research Use Only. Not for		
Applications: Reactive FC-FP H M		UniProt ID: Entrez-Gene Id: #P36402 6932
Product Usage Information	Application	Dilution
mormation	Flow Cytometry (Fixed/Permeabilized)	1:50
Storage	Supplied in PBS (pH 7.2), less than 0.1% sodium azi antibody. Protect from light. Do not freeze.	de and 2 mg/ml BSA. Store at 4°C. Do not aliquot the
Specificity / Sensitivity	TCF1/TCF7 (C63D9) Rabbit mAb (Alexa Fluor [®] 647 TCF1/TCF7 protein. This antibody does not recogniz lacking the amino-terminal β-catenin binding domain	e the dominant negative isoforms of TCF1/TCF7
Source / Purification	Monoclonal antibody is produced by immunizing anin surrounding Pro95 of human TCF1/TCF7 protein.	nals with a synthetic peptide corresponding to a region
Product Description	This Cell Signaling Technology antibody is conjugate house for direct flow cytometry analysis in human cel species cross-reactivity as the unconjugated TCF1/T	ls. The antibody is expected to exhibit the same
Background	LEF1 and TCF are members of the high mobility group (HMG) DNA-binding protein family of transcription factors that consists of the following: Lymphoid Enhancer Factor 1 (LEF1), T Cell Factor 1 (TCF1/TCF7), TCF3/TCF7L1, and TCF4/TCF7L2 (1). LEF1 and TCF1/TCF7 were originally identified as important factors that regulate early lymphoid development (2) and act downstream in Wnt signaling. LEF1 and TCF bind to Wnt response elements to provide docking sites for β -catenin, which translocates to the nucleus to promote the transcription of target genes upon activation of Wnt signaling (3). LEF1 and TCF are dynamically expressed during development and aberrant activation of the Wnt signaling pathway is involved in many types of cancers, including colon cancer (4,5).	
	TCF1/TCF7 has several isoforms due to alternative s The isoforms generated by the alternative promoter of domain and therefore may function in a dominant neg expression both in the total amount and the type of is differentiation (7).	gative manner (6). TCF1/TCF7 displays dynamic

Limited Uses Except as otherwise expressly agreed in a writing signed by a legally authorized representative of CST, the following terms apply to Products provided by CST, its affiliates or its distributors. Any Customer's terms and conditions that are in addition to, or different from, those contained herein, unless separately accepted in writing by a legally authorized representative of CST, are rejected and are of no force or effect.

Products are labeled with For Research Use Only or a similar labeling statement and have not been approved, cleared, or licensed by the FDA or other regulatory foreign or domestic entity, for any purpose. Customer shall not use any Product for any diagnostic or therapeutic purpose, or otherwise in any manner that conflicts with its labeling statement. Products sold or licensed by CST are provided for Customer as the end-user and solely for research and development uses. Any use of Product for diagnostic, prophylactic or therapeutic purposes, or any purchase of Product for resale (alone or as a component) or other commercial purpose, requires a separate license from CST. Customer shall (a) not sell, license, loan, donate or otherwise transfer or make available any Product to any third party, whether alone or in combination with other materials, or use the Products to manufacture any commercial products, (b) not copy, modify, reverse engineer, decompile, disassemble or otherwise attempt to discover the underlying structure or technology of the Products, or use the Products for the purpose of developing any products or services that would compete with CST products or services, (c) not alter or remove from the Products any trademarks, trade names, logos, patent or copyright notices or markings, (d) use the Products solely in accordance with CST Product Terms of Sale and any applicable documentation, and (e) comply with any license, terms of service or similar agreement with respect to any third party products or services used by Customer in connection with the Products.
