For Research Use Only. Not for Use in Diagnostic Procedures.

Lamin A/C (4C11) Mouse mAb (Alexa Fluor[®] 488 Conjugate)

Applications: IF-F, IF-IC, FC-FP	Reactivity: H M R Mk	Sensitivity: Endogenous	Source/Isotype: Mouse IgG2a	UniProt ID: #P02545	Entrez-Gene Id: 4000		
Product Usage	Ap	plication			Dilution		
Information		nunofluorescence	(Frozen)		1:50		
	Imn	nunofluorescence	(Immunocytochemistry)		1:50		
	Flov	w Cytometry (Fixed	d/Permeabilized)		1:50		
Storage		Supplied in PBS (pH 7.2), less than 0.1% sodium azide and 2 mg/ml BSA. Store at 4°C. Do not aliquot the antibody. Protect from light. Do not freeze.					
Specificity / Sensit	prote	Lamin A/C (4C11) Mouse mAb (Alexa Fluor [®] 488 Conjugate) detects endogenous levels of lamin A and C proteins. It also reacts with the larger fragments of lamin A (50 kDa) and lamin C (41 kDa) produced by caspase cleavage during apoptosis. This antibody does not cross-react with lamins B1 and B2.					
Source / Purification		Monoclonal antibody is produced by immunizing animals with a recombinant fragment of human lamin A protein.					
Product Descriptio	hous	This Cell Signaling Technology antibody is conjugated to Alexa Fluor [®] 488 fluorescent dye and tested in- house for direct flow cytometry and immunofluorescent analysis in human cells. This antibody is expected to exhibit the same species cross-reactivity as the unconjugated Lamin A/C (4C11) Mouse mAb #4777.					
Background	func cleav spec	tions such as cell o ved by caspase-6 a cifically cleaved into	cycle control, DNA replication, ar and serves as a marker for casp	hat are important in maintaining i nd chromatin organization (1-3). Limited Uses

Except as otherwise expressly agreed in a writing signed by a legally authorized representative of CST, the following terms apply to Products provided by CST, its affiliates or its distributors. Any Customer's terms and conditions that are in addition to, or different from, those contained herein, unless separately accepted in writing by a legally authorized representative of CST, are rejected and are of no force or effect.

Products are labeled with For Research Use Only or a similar labeling statement and have not been approved, cleared, or licensed by the FDA or other regulatory foreign or domestic entity, for any purpose. Customer shall not use any Product for any diagnostic or therapeutic purpose, or otherwise in any manner that conflicts with its labeling statement. Products sold or licensed by CST are provided for Customer as the end-user and solely for research and development uses. Any use of Product for diagnostic, prophylactic or therapeutic purposes, or any purchase of Product for resale (alone or as a component) or other commercial purpose, requires a separate license from CST. Customer shall (a) not sell, license, loan, donate or otherwise transfer or make available any Product to any third party, whether alone or in combination with other materials, or use the Products to manufacture any commercial products, (b) not copy, modify, reverse engineer, decompile, disassemble or otherwise attempt to discover the underlying structure or technology of the Products, or use the Products for the purpose of developing any products or services that would compete with CST products or services, (c) not alter or remove from the Products any trademarks, trade names, logos, patent or copyright notices or markings, (d) use the Products solely in accordance with CST Product Terms of Sale and any applicable documentation, and (e) comply with any license, terms of service or similar agreement with respect to any third party products or services used by Customer in connection with the Products.
