For Research Use Only. Not for Use in Diagnostic Procedures.

Applications: WB, W-S	Reactivit H M R Hm N Z B Pg	Mk Mi Endogenous	MW (kDa): 42, 44	Source/Isotype: Mouse IgG1	UniProt ID: #P27361, #P28482	Entrez-Gene Id: 5595, 5594		
Product Usage Information		Application Western Blotting Simple Western™			Dilution 1:1000 1:50 - 1:250			
Storage		Supplied in 10 mM sodium HEPES (pH 7.5), 150 mM NaCl, 100 μ g/ml BSA, 50% glycerol and less tha 0.02% sodium azide. Store at –20°C. Do not aliquot the antibody.				ol and less than		
Specificity / Sensitivity		p44/42 MAPK (Erk1/2) (3A7) Mouse mAb detects endogenous levels of total p44/42 MAP kinase (Erk1/2). It does not cross-react with either JNK/SAPK or p38 MAP kinase.						
Source / Purification		Monoclonal antibody is produced by immunizing animals with a synthetic peptide corresponding to the sequence of p44/42 MAP kinase.						
kinases involved ir The p44/42 MAPK extracellular stimu consider it an impo three-part protein I MAP3K), a MAP k have been identifie are the primary M/ phosphorylation of downstream targe (8,9). p44/42 are n		kinases involved in ma The p44/42 MAPK (Erl extracellular stimuli, in consider it an importar three-part protein kinas MAP3K), a MAP kinas have been identified, in are the primary MAPK phosphorylation of acti downstream targets of (8,9). p44/42 are nega	tein kinases (MAPKs) are a widely conserved family of serine/threonine protein nany cellular programs, such as cell proliferation, differentiation, motility, and death. rk1/2) signaling pathway can be activated in response to a diverse range of ncluding mitogens, growth factors, and cytokines (1-3), and research investigators ant target in the diagnosis and treatment of cancer (4). Upon stimulation, a sequential ase cascade is initiated, consisting of a MAP kinase kinase kinase (MAPKKK or se kinase (MAPKK or MAP2K), and a MAP kinase (MAPK). Multiple p44/42 MAP3Ks including members of the Raf family, as well as Mos and Tpl2/COT. MEK1 and MEK2 KKs in this pathway (5,6). MEK1 and MEK2 activate p44 and p42 through tivation loop residues Thr202/Tyr204 and Thr185/Tyr187, respectively. Several of p44/42 have been identified, including p90RSK (7) and the transcription factor Elk-1 atively regulated by a family of dual-specificity (Thr/Tyr) MAPK phosphatases, known 10), along with MEK inhibitors, such as U0126 and PD98059.

Except as otherwise expressly agreed in a writing signed by a legally authorized representative of CST, the following terms apply to Products provided by CST, its affiliates or its distributors. Any Customer's terms and conditions that are in addition to, or different from, those contained herein, unless separately accepted in writing by a legally authorized representative of CST, are rejected and are of no force or effect.

Products are labeled with For Research Use Only or a similar labeling statement and have not been approved, cleared, or licensed by the FDA or other regulatory foreign or domestic entity, for any purpose. Customer shall not use any Product for any diagnostic or therapeutic purpose, or otherwise in any manner that conflicts with its labeling statement. Products sold or licensed by CST are provided for Customer as the end-user and solely for research and development uses. Any use of Product for diagnostic, prophylactic or therapeutic purposes, or any purchase of Product for resale (alone or as a component) or other commercial purpose, requires a separate license from CST. Customer shall (a) not sell, license, loan, donate or otherwise transfer or make available any Product to any third party, whether alone or in combination with other materials, or use the Products to manufacture any commercial products, (b) not copy, modify, reverse engineer, decompile, disassemble or otherwise attempt to discover the underlying structure or technology of the Products, or use the Products for the purpose of developing any products or services that would compete with CST products or services, (c) not alter or remove from the Products any trademarks, trade names, logos, patent or copyright notices or markings, (d) use the Products solely in accordance with CST Product Terms of Sale and any applicable documentation, and (e) comply with any license, terms of service or similar agreement with respect to any third party products or services used by Customer in connection with the Products.
