## BIOKÉ

# The Fastest Way to a Single Cell

Namo<sup>™</sup> Single Cell Dispenser

... Nåmocell

## The Namo Single Cell Dispenser makes single cell isolation and sorting fast, easy, and affordable.

Single cell dispensing in 1 min / 96-well plate and 3 min / 384-well plate. Bulk sort 100M cells in 5 min.

### 💋 FLEXIBLE

Input can be as low as 100 cells and the sample density can range from 100 cells/ mL to 1B cells/mL.

Low pressure ensures cell viability and integrity.

The software assisted prompts ensure foolproof operation. Automated initialization and shutdown routines.

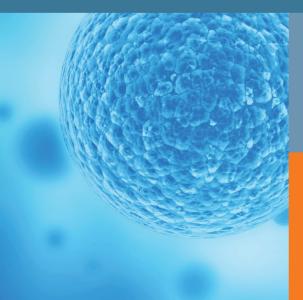

The lightweight benchtop instrument fits in a tissue culture hood.

Low cost of total ownership.
